

Liposkin Pro

It is a Lactobacillus rhamnosus, Lactoferrin and Nicotinamide dietary supplement.
This product can contribute to maintain a normal skin, being a specific probiotic based product adjuvant in anti-acne therapy.

LIPOSKIN PRO promotes the balance of the intestinale flora, strengthen the immune defenses, regulating the intestinal skin axis, through one of the most studied strains.

Lactoferrin has a strong antimicrobial action thanks to the ability to bind iron and the ability to reduce the production of pro-inflammatory cytokines.

Nicotinamide inhibits the inflammatory process in acne.
